DRUID Academy Winter 2005 PhD Conference

Industrial Evolution and Dynamics

The conference is organized by the [DRUID](#) Academy for doctoral education and training, see further: <http://www.druid.dk/academy/> and in collaboration with the coming EU 6th Framework Network of Excellence [DIME](#) Consortium (Dynamics of Institution and Markets in Europe). The conference is open for DRUID members as well as for PhD students coming from the international network partners of DRUID, including those connected to the ETIC PhD programme. DRUID is the node for an open international network - new partners are always of interest. Do not hesitate to apply even if you have not been in contact with DRUID previously.

The main emphasis is on PhD presentations. DRUID seniors will participate mainly as discussants. There will also be a handful of keynote speakers on the programme. At the moment the programme includes the following (without final specification of the titles of their presentations):

- Anita McGahan, Boston University School of Management and Senior Institute Associate Institute for Strategy
- Ed Steinmueller, SPRU, University of Sussex
- Bo Carlsson, Dept. of Economics, Case Western Reserve University, USA
- Thomas Brenner, Max Planck Institute for Research into Economic Systems, Germany
- Orietta Marsili, Rotterdam School of Management
- Paul Geroski, The Competition Commission, UK and London Business School
- Keld Laursen, DRUID, Copenhagen Business School

The details of the program, titles of keynote presentations etc. will currently be updated at the [DRUID](#) homepage.

Everyone who wishes to present a paper must submit an extended abstract electronically before December 1, 2004. You will receive an answer no later than Friday December 3, 2004. Final deadline for papers is January 5, 2005.

E-mail concerning the conference: winter2005@druid.dk.
