The logo for the journal 'Industry and Innovation', with 'Industry and' in blue and 'Innovation' in a larger, bold blue font.

DRUID is associated with the journal Industry and Innovation, published by Routledge.

Industry and Innovation is an international refereed journal presenting high-quality original scholarship of the dynamics of industries and innovation.

Interdisciplinary in nature, Industry and Innovation is informed by, and contributes in turn to, advancing the theoretical frontier within economics, management, sociology, and economic geography. Currently in its 22nd year and with 8 annual issues, Industry and Innovation's 2014 5-year impact factor in Thomson Reuters' Social Science Citation Index was 1.094.

[What is DRUID?](#)**What is DRUID****What is DRUID?****The DRUID Winter Conference 1997**

The Winter seminar was introduced by an interesting lecture of Bo Carlsson on the general state of research in Industrial Dynamics. Other international scholars were Massimo Colombo, Dieter Ernst, Jan Fagerberg, Staffan Læstadius, Lynn Mytelka. 19 papers representing more than 25 DRUID scholars were presented and commented by Danish colleagues and by the international scholars. [The papers](#) can with few exceptions be accessed on the DRUID home page in a PDF-format. As foreseen, the programme was quite dense and there were few opportunities to go into deeper discussions in the official sessions. But authors got useful feed-back on critical points and useful exchanges took place outside the sessions. A number of Ph.D. students made important remarkably good contributions both in terms of papers and in being discussants to papers.
